

# THE ARIZONA SILVER BELT.

OFFICIAL PAPER OF GILA CO.

Saturday, October 9, 1886.

This paper is kept on file at E. C. Drake's Advertising Agency, 84 and 85 Merchants' Exchange, San Francisco, Cal., where contracts for advertising can be made for it.

## POST OFFICE HOURS.

Open from 7 A. M. to 7 P. M., daily.  
Sundays—from 8 to 9 A. M.  
ALONZO BAILEY, P. M.

## LOCAL NEWS.

Register while you may. October 12th is the last day of grace.

Judge W. H. Culver, of the Narrow Gauge R. R. Co., is now in California.

A number of coke teams came in this week. One or two of them had been on the road six weeks or longer.

E. F. Kellner & Co. expect a large stock of new goods, which will be sold at popular prices, and many special bargains, which defy all competition.

Mrs. J. W. Frakes, Miss Carrie Frakes and J. W. Ransom took their departure for the East on Tuesday last, Mr. Frakes driving them to Casa Grande.

At cost, at cost, at cost, but for cash only, is the intention of Mrs. R. Gill to sell staple as well as fancy groceries. Call and convince yourself.

General regret is expressed at the departure, for San Diego, Cal., of J. L. Bachelder, who has been a resident of Globe almost since its inception, and is esteemed here for his many good qualities.

To buy and sell close it must be "Cash Only" and we aim to attain perfection. Give our "Cash Prices" a trial and you will be convinced that we can save you lots of money.

E. F. KELLNER & CO.

RAFFLE.—Two large, fine mules, free from blemishes, owned by Mr. S. Gilson, will be raffled on the 13th inst., at 7 o'clock p. m., at McNelly's saloon, where chances can now be secured for \$5 each.

George Strong and Wm. Beard have made a rich strike in the Stonewall Jackson, at McMillen. The boys at that camp are all doing well, but during the past week the frequent visits of candidates sadly interfered with work, and little was done save indulging in a social glass occasionally, and the delivery of eloquent perorations on the silver question.

E. F. Kellner having just returned from market and bought a complete stock of goods containing many special bargains, we are prepared to give our customers inducements which cannot be equalled elsewhere. Remember we will not be undersold by anybody or in any one article.

E. F. KELLNER & CO.

Dr. S. F. Gladwin, a resident dentist of Tucson, came up to Globe last Saturday, to enjoy a rest for a season in our mountain town. But in this respect he has been disappointed, as he has had so many calls on his skill as to keep him constantly employed at his profession. The Doctor's stay here will be short, and persons wishing to avail themselves of his services should not delay calling upon him.

The time prescribed by law for holding the September term of court for Gila county is the 27th. The judge failed to put in an appearance on that day, however, and Court Commissioner Fox adjourned court for one week, and it is now regarded as probable that another adjournment will be necessary, and that two weeks more may intervene before court is held. If we were informed when litigants might appear and have their day in court, we would gladly state it.

Andre Maurel has conceived a plan for conducting the water of Pinal creek to his farm, below the Buffalo smelter, by which he will be enabled to turn a turbine wheel of sufficient capacity to run a mill and irrigate a large acreage of ground. He proposes striking bed rock near the Long Island smelter, and continue a covered ditch from that point to where he proposes to utilize the water at his ranch, with a view of obtaining a fall of twenty-five feet. Mr. Pendleton has already made the survey.

George Bird is not enthusiastic over his recent visit to St. Louis, where he went to attend the Knights Templar convocation. He arrived there after the opening day and found the city crowded to overflowing. He was unable to find comfortable lodgings and was subjected to the extortions usual at such immense gatherings. The convocation in other respects, however, was very enjoyable. It is estimated that there were one hundred and twenty-five thousand visitors in the city during the week. While in St. Louis Mr. Bird was introduced to a gentleman from Chicago, who assured him that the Mineral Belt Railroad was "a go," that there was no mistake about it this time. Being interrupted during the conversation Mr. Bird did not learn anything further, nor did he again meet his informant.

## NOTICE TO CANDIDATES.

In pursuance with a resolution adopted at a Mass Meeting of citizens, held in Gila County, October 24, 1886, you are hereby invited to be present at a meeting to be held on Globe, on the evening of October 11th, 1886, at the Big Rink, for the purpose of ascertaining the views of political candidates, irrespective of party, regarding matters of vital importance to Gila County. Be sure to attend without fail as your non-appearance might be construed to their political disadvantage.

By order of committee,  
ALEX. TRIPPEL, Chairman.  
S. C. HEINEMAN,  
B. F. PASCOE.

## HYMNICAL.

The marriage of Mr. Dan Gilliland and Miss Annie Packard, on the 29th ult., was an event of importance in Tonto Basin, where the contracting parties are known and respected for their many good qualities. The groom is one of the most popular young men in that section, and the bride a young lady of intelligence, with many womanly virtues. The wedding took place at the residence of the bride's parents, Mr. and Mrs. A. A. Packard, on Tonto, in the presence of more than one hundred invited guests. After the ceremony dancing was inaugurated and continued until sunrise, with an intermission only of sufficient length to discuss a regal supper. The affair was the most enjoyable that has taken place on Tonto for many a month. The numerous friends of the young couple hope that their future may be one of unalloyed happiness.

## MASS MEETING.

The meeting at the rink, on the evening of the 2nd inst., for the interchange of opinions in regard to giving aid to the Narrow Gauge railroad (to hasten the building of said road to Globe) was largely attended. Dr. Alexander Trippele was called to the chair and lucidly and at length explained what was proposed to do in the premises. Joseph H. Hamill was elected secretary. The meeting was subsequently addressed by Dr. T. C. Stallo, Dr. S. C. Heineman, J. D. McCabe, W. A. Holmes and Alex. Graydon. Judge Hackney moved a vote for giving material aid by the County of Gila, for the purpose of connecting Globe with Tucson by rail, upon the plan as explained to the meeting, and upon a vote being taken, it was unanimously carried, which showed conclusively that the advantages arising from rail transportation had been well and intelligently weighed by those composing the meeting. Dr. Trippele, B. F. Pascoe and Dr. Heineman were appointed a committee to correspond with W. H. Culver, of the Narrow Gauge Company, and request his presence in Globe to confer with citizens at a public meeting, the date to be announced by the committee. Also to notify political candidates to be in attendance and give their views on the matter in question. The date of the next meeting has since been set for the 11th inst.

## STOPPAGE OF THE MAIL.

There has been a great deal of just complaint among our people because of the failure in the mail service between Florence and Globe, Spillsbury the sub-contractor having abandoned the route in consequence of financial loss and the inadequate pay for service. The last mail received was on Friday, the 1st inst. The following postal law meets such an emergency:

Sec. 616. When postmasters may employ temporary service.  
When any contractor fails to commence the service stipulated in his contract, or abandons the same, it is the duty of the postmaster at the head of the route (the postoffice first named in the advertisement and contract) to employ temporary service, at the lowest rate possible, but in no case at a higher rate than that paid under the last preceding regular contract, and to report the facts to the Second Assistant Postmaster-General, immediately.

According to the foregoing law the postmaster at Florence (that being the head of route No. 40128, Florence to Globe) was authorized to put on temporary service at once, but failing to do so (finding no one that would accept it at the price named), W. W. Brookner, assistant postmaster for Globe, telegraphed the department the situation and, in reply, received instructions to employ temporary service at a cost not exceeding \$47 the round trip, the maximum rate per day for this route.

W. H. Sutherland, we are informed, telegraphed a bid, which could not be accepted. In case Salisbury, contractor, does not resume, then all bids will be considered and the lowest accepted.

John Jones' bid for carrying the mail, until the contract is re-let, or service resumed by the contractor, was accepted, and he left yesterday morning for Riverside, where he will receive the mail, arrangements having been made for temporary service between Florence and that place, and the regular delivery here will be resumed this evening.

Dr. Henley's Celery, Beet and Iron. Restores lost vitality and gives new life and vigor. For sale by Chas. E. Taylor.

## GLOBE AS A MINING DISTRICT.

The '86 mine, Mack Morris hole, and first eastern extension of the La Plata mine, in Richmond Basin, is attracting attention in consequence of its recent extraordinary yield of silver. One and a half tons of ore milled 5,380 ounces, of which one ton, belonging to Henry Risbridger, produced in silver 6,700 ounces. It was milled by Paul J. Johnson, and so cleanly done that an assay showed but one per cent in the tailings.

Three and a half tons of Blue Clay ore treated by Johnson at the same time, produced 440 ounces in silver. The Blue Clay joins the south line of the East Richmond and is a promising mine, as, indeed, are most of the discoveries in Richmond Basin, the chief of which is the Mack Morris, which produced, during the three years the Mack Morris Company worked it, \$647,574 85. The sum total taken from it exceeds \$700,000, and had it been properly worked, it would be a dividend paying mine to-day. But the company was unfortunate in having a business man for superintendent, who knew nothing whatever of mining. It consequently was butchered, the lead lost, and pronounced worked out, which has since proved not to be the case. Miners who originally worked in it took leases, and have made money out of it, and are anxious to renew their leases. It is above the water level, and the ore is of an enduring character, argentiferous and antimonial sulphurets.

The same thing can be said of the Stonewall Jackson, at McMillen. It is a big mine and equally as prolific in silver as the Mack Morris, but it also was unfortunate in not having skilled superintendents, who left the mine in so deplorable a condition that its owners were induced to cease working it. But with such a promising property it was not possible that it should be permitted to remain idle, and now it retounds with detonating powder and the sturdy thwacks of the hammer upon the head of the drill.

The Howard, another valuable property, belonging to a Cleveland company, and practically abandoned, is also coming to the front, under same management, but a different superintendent, who at last accounts had revealed a valuable bed of ore.

Globe is not only a silver producing district, but is also the best copper camp in Arizona, and no one has done as much as Dr. Alexander Trippele, superintendent of the Old Globe mine, who has established the fact that that mine has no equal in richness and quantity of ore. Nor is the Old Globe our only copper mine; there are others, if equally developed, would show a mine of wealth.

Globe, since a week ago last Friday, has been in the unique, but very unsatisfactory position of a town of fifteen hundred souls, within the domain of the United States, cut off from mail communication with the outside world. It is bad enough to be isolated as we are from rail connection, but no one fully realized, before, how dependent we are on the daily mail service for our contentment of mind and the satisfactory conduct of business. Unfortunately none of us have attained to the spiritual perfection ascribed to Theosophist adepts, who, residing in the solitudes of the mountains of Tibet, far removed from any habitation, nevertheless, are fully informed of everything of moment occurring all over the world. Omniscience would be a most desirable possession for the country editor, and in order to acquire that gift we would be willing to take up our abode, for a season, on the summit of Pinal mountain and give ourselves over to fasting and the rigorous life of a hermit. However, since faith is the chief requisite to obtain such power and ours is somewhat smaller than a grain of mustard seed, we are forced to abandon the idea, and still depend on Uncle Sam's uncertain postal service to gain a knowledge of what is transpiring in the busy world.

## Everything Goes Wrong.

In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, impure assimilation, are certain to ensue. But it is easy to prevent these consequences, and remove their cause, by a course of Hostetter's Stomach Bitters, which stimulates the biliary organ and regulates its action. The direct result is a disappearance of the pains beneath the ribs and through the shoulder blade, the nausea, headaches, yellowness of the skin, torpid look of the tongue, and sour odor of the breath, which characterize liver complaint. Sound digestion and a regular habit of body are blessings also secured by the use of this celebrated restorative of health, which imparts a degree of vigor to the body which is its best guarantee of safety from malarial epidemics. Nerve weakness and over-tension are relieved by it, and it improves both appetite and sleep.

## Rapid Beating of the Heart.

Whenever you feel an uneasiness in the region of the heart, a slight pain in the shoulder, arm, or under the shoulder-blade, or when you find yourself short of breath when exercising, or your heart has periods of beating fast, you have heart disease, and should take Dr. Fink's Heart Remedy. At druggists; \$1.00. Descriptive treatise with full bottle; or address J. J. Mack & Co., S. F.

## COMMUNICATION.

TORO, A. T. Sept. 15, 1886.  
Eos. SUTHERLAND.—A few days ago a man named John Monk, while engaged digging a well on his ranch near Sunflower, in the Reno mountains, some ten miles west of here, met with a fatal accident. While at work, at the depth of twelve feet, the walls caved in, burying him up to the chin in sand and loose stones; which gathered around him from all directions, holding him in their rocky grasp so tightly that he could not move a muscle, though he still retained the power of speech.

Monk lived alone on the ranch, but there happened to be some one there at the time the accident occurred, and he carried the news to Ward's cow ranch, where he received assistance and returned to the well. Thus in a few minutes there were five men on the scene, who remained there and talked to Monk for forty consecutive hours. In the meantime he begged them to dig him out; telling them that if they would only save him from such a horrible death, that they should want for nothing while he lived. It is rumored that he implored them with his latest breath to save him. One man stood on the banks, with a tin cup in his hand, and bailed the sand away from his mouth. They staid there till he finally succumbed to the inevitable—or, till they supposed he was dead, and then they strayed off their several ways.

Now it looks to your correspondent as though five men, in forty hours, ought to have dug a ditch a half mile long and ten feet deep, in loose sand, especially, digging to save a mortal from a living tomb.

It seems that he had some difficulty about the ranch with some of the parties who were present at his death, they claiming the ranch.

Ranchers are a peculiar class of individuals anyway. When one rancher meets his neighbor coming in his direction, in place of going up to him and saying, "I am delighted to see you my friend this morning. How are your stock and mine getting along on the range?" In place of him greeting his neighbor in the above style, he thinks it more becoming to take a roundabout course so as to keep a pistol-shot away from him, and from this long-ranged distance, they eye each other's anatomy, till their forms vanish behind the rolling hills.

So far as Gila county is concerned, the Governor of the Territory has not complied with the law requiring him to issue his proclamation in reference to general elections, designating the offices to be filled at such election. The Secretary of the Territory, however, has done so, doubtless under the impression that he is not an ad interim Governor, and omits to mention the office of Probate Judge as one of the offices to be filled. During the absence of the Governor the Secretary is authorized to act, but in such cases he should sign as acting Governor, and not as Secretary. Another mistake of the Secretary in his proclamation is that he commands the election of a Joint Councilman for Gila county. The law says that "the county of Cochise shall elect one member of the Council, jointly with the counties of Graham, Gila, Pinal and Pima," which, if his notice to the Sheriff can be construed as a proclamation, it should have been within the requirements of the law, and mentioned all the counties provided for under the law. Happily, however, the mistakes of an executive officer will not invalidate an election if the statutes relating thereto have, in other respects, been strictly followed.

## Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children; 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

## NOTICE.

Having heard that objection has been raised to my candidacy for the office of sheriff, on account of my present calling, I desire to thus publicly state that whether elected or not, it is not my intention to continue in the saloon business. E. E. HODGSON.

G. A. SWASEY has for sale a lot of Cedar posts, vigas, and joists, also sewing machine, letter press, pump, clock, blacksmiths bellows, windlass rope, a lot of glassware assorted, safe, some chairs, tables, camp stools, blankets, mattresses, large bar mirrors, lamps and a variety of useful articles cheap for cash.

## A CARD.

It being rumored that, if elected, I would appoint Wm. Murphy my deputy, in justice to myself and Mr. Murphy, I will state that he never asked to be appointed deputy, and there was never any intention of appointing him; and if I am elected he will not be appointed.  
PATRICK SHANLEY.

E. F. Kellner and son arrived on Sunday last from California, and will make a protracted stay in Globe. Mr. Kellner and the other children will follow shortly.

## PREFERRED LOCALS.

All kinds of family groceries at G. S. Van Wagonen's.
